

Amendments to the Specification

Page 25, line 15 to page 26, line 5, please rewrite as follows:

The concrete procedures for production include the procedure that an active ingredient and the raw materials of the preparation are mixed in a mixer followed by immediate tableting. Also the procedure that the materials are dry compressed into tablets by the slugging method or roller-compacter method, the procedure for production of granules for tablets by ~~dry~~ **wet** tableting using water, acetone, ethyl alcohol, propyl alcohol, or a mixture thereof, in which a binder, if necessary, has been dispersed or dissolved, and the procedure for production of granules for tablets after dividing the materials into two or more groups may be applicable. For production of tablets from granules for tablets, a cellulose compound, a disintegrating agent, a fluidizing agent, a lubricant, a flavoring agent, a sweetener, and the like may be mixed as needed.
